Capelle aan den IJssel, 30. January 2021

Dear members of the NBBF,

It has now been more than 10 months since we were surprised by the far-reaching consequences of the corona virus within our society. Actually 1 day before the Juliette Bergmann Cup the lock down started and prevented the match from continuing. From that moment on we made every effort to realize a contest proposition for our members. Each time we were overtaken by the sour reality. Until now it was impossible to organize any contest within the permitted framework.

In recent months we have been working hard on the competition program for 2021. With that in mind, in 2020 our athletes have gone into preparation twice without this effort being crowned with a moment on stage, so we had to make a difficult decision.

The chairman of the NBBF, in consultation with the senior assistant and the undersigned, has decided to cancel all matches that were planned for the period March, April, May 2021. The main argument for this is that when our athletes have to start preparing, we can't give any guarantee that contests will actually take place.

We hope and suspect that we can pick up contests again in September / October 2021. We will keep you informed about any progress and dates.

When circumstances allow, we will try to organize our posing clinics in order to have some moments of contact with you all. We miss you!!!

If you want to participate in international competitions in the meantime, please email juliettebergmann@ifbbnederland.nl. Of course this only applies to A athletes.

On behalf on the NBBF,

Juliette Bergmann	President
Ozden Tekcandan	Contest Commissioner
Richard Kien	Senior Assistant
