Capelle aan den IJssel, September 9, 2020

Dear athletes

The corona virus has already held the world in an iron grip for more than 6 months. One day it seems to be going in the right direction and barely a week later the number of infections rises enormously. Regardless of how we think about the virus and what we think of the measures, we as an organization will have to comply with the decisions made in The Hague.

Organizing our competitions will not be possible in the regular way as long as the one and a half meter restriction is in force.

The measures have now been relaxed to such an extent that it is possible to organize a bigger event. Adapted, but nevertheless beautiful.

Because we as an organization are logically confronted with a smaller number of participating athletes and therefore will have to accept that the number of coaches and audience will also be smaller, so we have decided to merge the Gold's Gym Classic, the Open Brabant Championships and the SAP Cup into 1 big C contest on Sunday October 25, 2020 in theater de Lievenkamp in Oss. By not spreading athletes and the public into multiple contests, we can organize one nice event for everyone and avoid unnecessary costs. Nobody wants contests with almost no athletes and an empty hall.

Because all NBBF C contests have now been merged into 1 big C match, the NBBF will deviate from its fixed flow system towards B level. We will communicate exactly how this will look like at a later time.

The NBBF regrets that information about the matches has been delayed for a long time. Unfortunately a difficult choice with potentially major financial consequences did not make it possible to inform you earlier.

The voucher scheme remains in effect for athletes who choose not to compete at this time.

On behalf of the NBBF

Juliette Bergmann	president
Ozden tekandan	wedstrijdcommisaris
Richard Kien	assistent to the president
